

Growing Changes By the Sea

Whole day Excursion to Nudgee Beach - **Year 2**

We learn about the amazing life stages of the animals and plants of Nudgee Beach.

Dare to be Aware!

Discover what lives in a beach environment; moon snails, yabbies and crabs.

Can you work out their life stages?

Come face to face with a local Mud Crab and discover its life cycle.

Have hands on fun working with native plants,
pot a seedling and take one back to your school!

Parents are needed for the day and it would be great
to have them involved!

*This program can cater for 2 class groups
or 1 only if the boat is included.*
