

Years 11-12 - Art in the Mangroves (IA1)

Part day or Full day program at NBEEC

Unit 3: Art as Knowledge

Students will undertake an immersive experience amongst the mangroves along the Tabbil Ban Dhagun Mangrove Boardwalk/Bird Hide track and in the intertidal zone at Nudgee Beach.

They explore the concept 'art as knowledge' as they employ new knowledge inspired by their personal interests, beliefs and observations of the world.

A variety of stimuli may include:

- Senses - sights, sounds, smells, textures and things to touch.
- Natural patterns and reflections.
- Cultural perspectives, historical context and Human impacts.

Reflecting on their immersive experience at Nudgee Beach, **students will frame a self-directed inquiry question in response to this teacher-facilitated direct stimulus or first-hand experience.**
